Troy, MI 48084-7186

Dear Mr. Backlund:

Re: Preliminary Determination
Hazardous Waste Management
Focused Compliance Evaluation
Amland Corporation/Chrysler
Rockwell International
EPA I.D. No. IND 981 091 515
Mishawaka, St. Joseph County, IN

Representatives of the Department of Environmental Management (Department) are conducting inspections of facilities in Indiana that are engaged in the generation, transportation, treatment, storage, or disposal of hazardous waste. Facilities are being inspected to determine compliance with Indiana Code 13-7 (IC 13-7), "Environmental Management Act", and Indiana Administrative Code, 329 IAC 3.1, "Hazardous Waste Management Permit Program and Related Hazardous Waste Management Requirements". These inspections and record reviews are also being conducted pursuant to the requirements of the Resource Conservation and Recovery Act (RCRA), Public Law 94-580, as amended, on behalf of the United States Environmental Protection Agency, (U.S. EPA).

Preliminary Determination

Amland Corporation/Chrysler Rockwell International

Page 2

This is to inform you that on June 18, 1996, an inspection of Amland Corporation/Chrysler Rockwell International, located at 13240 McKinley Ave was conducted by Mr. Duncan Campbell of USEPA, Mr. Said Asgari and me of the Office of Solid and Hazardous Waste Management (OSHWM), of the Department. Lab-Core Staff represented your firm at this inspection.

Please be advised that the inspection was classified as a "Focused Inspection", indicating that compliance with certain requirements of the Hazardous Waste Rules was not evaluated during the inspection. Although compliance with those provisions is not being evaluated at this time, your company is responsible for applicable requirements of the Rules. Your company is subject to future inspections to evaluate compliance with all provisions of the Hazardous Waste Rules.

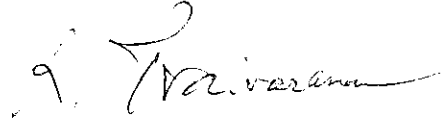

A copy of the inspection checklist detailing the status of compliance of your company is enclosed. The attached Description of Violations elaborates on the deficiencies found as a result of the inspection, and recommends specific corrective actions when needed to eliminate misunderstandings.

The deficiencies are being referred to the Office of Enforcement for further evaluation and a final determination of violations of IC 13-7 and 329 IAC 3.1. You will be notified by that office in writing of the violations and required corrective actions. During the interim period, it is recommended that Amland Corporation/Chrysler Rockwell International initiate steps to address the deficiencies identified in the Description of Violations in order to prevent continued violation.

Preliminary Determination
Amland Corporation/Chrysler Rockwell International
